

COVID - 19 UPDATE FROM DR.MERRIMAN & STAFF

To all of our dear patients, families and friends, it was with much thought and consideration that we made the decision to suspend any non-emergency dental procedures.

Our office proactively closed on Monday, March 16th. We are evaluating the situation as the days go on and hope that we will be back soon. If you are currently a patient

of record in our office and have an emergency, please call the office for instructions to reach Dr. Merriman.

Since we are always striving to be better, we are taking this time to examine our methods, techniques and approaches to ensure that we are providing the

best possible patient care for you.

We know that we will get through this event. Have faith and follow the recommendations of our leaders.

We are grateful for the outpouring of love and concern we have received. We are honored and privileged to be a part of your healthcare team and look forward to taking care of you very soon.

Dr. Jim Merriman & Staff
